## Hakusan Exhibition 2007

Dear Valued Customers,

We are happy to announce that the 13th Hakusan Exhibition will take place as scheduled below.

We have successfully been able to move the display location into new office premises in Nisshin since last year and renewed all the contents to make it even more exciting. We could only achieve this due to your outstanding support.

Right now, we are preparing for the exciting combos using large containers which we have been working on since last autumn, and we know that you will find a great potentiality in the new varieties. We especially focused on the different usage on each variety in combos, deliberating how they are able to perform well in each scene, as well as harmonize with other varieties. We hope you enjoy our displays and get the idea how to use the varieties to increase your business.

In the displays, you will find fascinating Proven Winners new varieties, which were carefully selected in our trials, other brand new varieties which are not listed even in our latest catalogue yet, also recommendable conventional varieties, machineries, greenhouse equipment, Toyota Floritech products and many more exciting items.

We are also planning annual seminars featuring inspiring speakers, that promise to provide informative lectures.

We are aware that you are in the middle of the busiest spring sales season, but we hope you will find the time to visit our show as we guarantee it is indeed worthwhile. We are more than happy to welcome you to our best show ever.

Sincerely,  
Teruo Takatomi  
Managing Director

● ***For Hakusan customers***

*Date; May 16th, 17th, 18th 10:00 ~ 16:30*
